

# Exposing Roots of Terrorism In USA

An editorial by His Eminence,  
El-Sheikh Syed Mubarik Ali Shah Gilani

On the 12<sup>th</sup> of February, a so-called “interim investigative report” by an unknown private individual who named himself “CP” investigator and Douglas J. Haggmann, with the internet address, [www.homelandsecurityus.com](http://www.homelandsecurityus.com), was released. This highly questionable report about Muslims of the Americas (MOA), their town Islamberg, NY, the International Qur’anic Open University, and the Vice Chancellor of IQOU, is a small part of a campaign of hate, fabricated falsehood, lies, and appalling propaganda aimed at bringing about a clash between Muslims and Christians the world over, and particularly in the United States of America. As the Imam of the Muslims of the Americas and Vice Chancellor of IQOU, I take this opportunity to expose this recurring scheme of deception and falsehood conjured up by vested interests.

The compilers of this report, CP/Haggmann, assert the claim of the existence of an alleged “Jamaat-ul-Fuqra”, placing me as its head. For the past 25 years I, and the members of MOA, and the staff of IQOU at Islamberg, have adamantly denied knowledge of any such organization in the U.S., Pakistan, or elsewhere.

In order to uphold and sustain one lie, one has to use hundreds of arguments. In this regard I am going to prove that Douglas J. Haggmann and his group are the actual perpetrators of international terrorism, and racial and religious bigotry and their ceaseless campaign of hate, is more damaging to the U.S. than any other country. The U.S. has become a pawn of hidden hands that use America’s wealth and the innocent blood of their sons and daughters to wage their wars against Muslims.

In World War II, observe how they managed to lure the U.S. into the war by concealing the Japanese secret code. This gave the green light to the Japanese to invade the U.S. at Pearl Harbor. This played an integral role in swaying public opinion towards opposing Hitler, eventually pushing the U.S. into the war.

It is obvious that Mr. Haggmann is employed by those whose aim is to focus on creating hatred between Muslims and Christians in America. Their method is to facilitate unsubstantiated charges, and outright lies against one of the most peaceful and patriotic communities in the US—Muslims of the Americas.

One such peaceful and patriotic community is Islamberg, which is a Muslim village where the residing families are encouraged to foster good relations with their neighbors. MOA, the IQOU, and their respective villages and campuses regularly host government officials. Sheriffs, mayors, and FBI representatives have been invited to join the MOA village residents during seasonal sports events, cultural/religious activities and festive dinners. MOA villages and campuses are open for all to come and see for themselves.

We would like Mr. Haggmann to address the following:

- On September 11<sup>th</sup>, about 100 MOA Boy Scouts belonging to MOA/IQOU were assisting the rescue and relief effort, on site, at Ground Zero, World Trade Center. They were surprised to learn, later, that some 4000 Jews employed at the WTC were conveniently absent on the 11<sup>th</sup> of September. The glaring question arises: How is it that they all came to be absent on that fateful day?

- Who were those people arrested on the New Jersey side by the FBI while videotaping the crash of the airplane?
- Why did building No. 7 collapse when it was clear that it was not hit by any airplane?

Mr. Hagmann do you have any answers to these questions? Put the responses on your website and let the American public decide for themselves who the real terrorists are. Let people decide! Are the Muslim Boy Scouts of IQOU/MOA to be feared or rather those shadowy *insiders* who destroyed these buildings? Their hope, to bring about a clash of civilizations, in order to realize their global empire, failed. And so too, their aim to blame the Muslims, will fail.

There is no benefit for American Muslims to destroy their own country or civilization and to clash with their Christian brethren. Our university has been busy developing very close ties with many Christian groups. We work hard to promote cooperation and peaceful dialogue between Muslims and Christians. Below are some of the MOA and IQOU activities that Mr. Hagmann failed to mention.

## **Muslim Boy Scouts at New Orleans**

“On Friday, September 30, 2005, the MOA Boy Scouts were called for duty, once again, to aid in an humanitarian disaster relief effort. The scouts were swift to respond when they learned assistance was needed. Within hours, responsible young men from six states were en route. Scouts assembled, pooled resources, and went forth for the sake of humanity, to aid in the Katrina relief effort.

“Scouts had to undergo extreme difficulties and sacrifices to assist those fellow Americans severely impacted by Hurricane Katrina.

“Their first task was to offer relief to devastated individuals and families in Slidell, Louisiana at a community Christian church. The kindheartedness of Muslims and their hard work overcame the anxieties of the people and instead, became a catalyst for a better understanding between the two parties.

“The Muslim Boy Scouts teamed with a Christian group, (PRC), and together they continued to render assistance to flood victims. This team demonstrated brotherhood in action.

“Satisfaction for the relief efforts was summed up by a statement from an elderly Christian lady, Ms. Mary Ann Gordon, who emotionally remarked with a smile, ‘I’m going to tell everyone that the Muslims came and blessed my house.’”

## **American Muslim Medical & Relief Team (AMMRT)**

When the world’s most deadly earthquake hit northern Pakistan, American Muslims of IQOU and MOA formed a relief and medical team and within days doctors, surgeons, and paramedics reached out and took charge of the orthopedic and burn wards of Ayyub Medical Hospital Complex at Abbotabad in North West Frontier Province (NWFP) of Pakistan. The following is a list of the Muslim participants:

- Dr. Almas Sheikh
- Dr. Naeemah Ghafur
- Dr. Jemille Smith
- Bashir A. Wadud, PA-C
- Aisha Muhammad, RN
- Bilqees Aziz-Abdallah, RN

- Bilqees Abdallah, LPN
- Lillie Vaughn, LPN
- Fatimah Terborg, RN
- Qasim Wasi, EMT
- Umm Tabari, RN
- Atiyah Powell, CNA

The AMMRT worked day and night to treat the earthquake victims, many of whom were children. They treated burns as well as various injuries: infected wounds, broken bones, amputations, and pneumonia (a result of exposure to the elements).

**Figure 1: AMMRT relief workers treating an earthquake victim in Pakistan.**

report, later published in book form. Rather, Yosef Bodanski himself worked covertly, for Israel, through 80 Non-Government Organizations (NGO's) in Peshawar situated near the border of Afghanistan.

Once again, it was not in the interest of the US to become involved in the insurgency in Afghanistan. The U.S. was manipulated by the Masons whose sinister scheme was to free Jews from USSR, facilitating their immigration to Israel. In this, both Masons and Mossad played a major role. One can cite dozens of such examples but a few will be sufficient to expose the evil, inhumane designs of hidden hands wherein lie the roots of terrorism.

Here a brief note about myself would be most appropriate. I am a Sufi and the head of the Qadiri Sufi Order established by my ancestor, Sultan Muhyuddin Abdul-Qadir Jilani of Baghdad. My title is **Sultan of Qadiri Order** and thousands of people address me as "O Sultan of Walis, Sultan of Arifeen." Those who wish to insult me call me *Sultan of Fuqra*, which means "Prince of Paupers". People may say what they like, but my title remains Sultan of Qadiri Order.

In 1976, I was requested by the Saudi Arabian government to help them scientifically prove the powers and effects of the Holy Qur'an on human beings, plants, and animals, for the benefit of a team of researchers present for the demonstration. This was a project sponsored by the World Health Organization in Ta'if in 1976-77, and applauded for its success in the daily *Al-nadwa*. I was able to heal 39 "incurable" mental patients as well as demonstrate the effects of the words of Almighty God on living and non-living things. Readers are invited to peruse the publi-

The team arrived with medications, food, tents, bed sheets, and quilts purchased in the United States. Everywhere they went they won over the hearts of the people. It became clear that this sentiment was an unprecedented experience as Pakistanis regarded the AMMRT as goodwill ambassadors for America.

This example of humanitarian aid is not an isolated incident. Similar efforts were undertaken to assist the victims of the tsunami in Asia.

Contrast the events above to false allegations that American Muslims went to Pakistan for military training is one of the ongoing lies which originated with Mossad agent, Yosef Bodanski's

cations *The Ultimate Fraud of Freudists*<sup>1</sup> and the shorter journal, *Introduction to El-Gilani Methodology*.<sup>2</sup>

In 1978, I toured England, giving dissertation in Maudsley Hospital (London) on mental diseases and their remedies. By the end of 1979, I decided to introduce my methodology term “EGM” (El-Gilani Methodology) to the hospital environment in the U.S. The following are cases of patients who were cured using the El-Gilani Methodology:

- King Fahd sent the son of his Chief bodyguard for treatment to neurologists who failed to revive him for five days. El Sheikh revived him in 15 minutes.
- Sheikh Gilani met the challenge of his opponent who said, “He can’t revive dead cells”. By God’s Mercy and Help, he revived a brain-dead patient who was given 48 hours to live, and who was under the care of Dr. Davis in Germantown Hospital (Philadelphia). The patient was then treated by Dr. Wadud and was revived using the El-Gilani Methodology.
- In June 2002, a patient suffering from the severe effects of Sickle-cell Anemia was cured and discharged from Lourdes Hospital (New York) five days after he had been given 48 hours to live.
- A patient possessed by an entity that prevented her from having relations with her husband, was given water to drink that contained special prayers and Divine Words as prescribed by El-Sheikh Gilani. Immediately, a black smoky figure was seen leaving the woman, and the couple’s marital relationship was restored.<sup>3</sup>

In order to introduce Islamic sciences, in 1982, I established the International Qur’anic Open University; the Muslims of the Americas also established at the same time.

While visiting Brooklyn I realized that if Muslims were allowed to continue to live in that environment relying on social services assistance, they would never be able to realize purposeful, honorable lives. Prior to my arrival, many anti-social acts were being committed in the name of Islam. I declared welfare forbidden for every healthy, able-bodied person. People were to be reformed, educated, and provided with jobs, in place of receiving income from social services. I moved them out from the ghettos of many major American cities, purchasing property in rural areas, with the intent of establishing serene Muslim villages. Since then, other Islamic organizations have followed our example.

It was a great challenge on the part of the people to leave their dependency on government assistance. I lived with them at that time, during this time of great adjustment, sharing their lean times. We had a better opportunity to protect our loved ones from the menace of crime and drugs, more prevalent in the big city environment. As with most reformist organizations there are those that are resistant to change. Such individuals were encouraged to completely separate themselves from us. Therefore, MOA/IQOU no longer had any responsibility for their actions.

Mr. Hagmann’s charges are not at all original. They are no more than a regurgitation of the slur campaign of Mossad agent, Yosef Bodanski. This maliciousness has led to instances of violence being perpetrated against more than five members of our organization—hate crimes.

<sup>2</sup> Gilani Hashimi, El-Sheikh Syed Mubarak Ali, *Introduction to El-Gilani Methodology*. New York: Zavia Books, 2003.

<sup>3</sup> More documented cases of the El-Gilani Methodology can be examined on the website of the International Qur’anic Open University at [www.iqou-moa.org](http://www.iqou-moa.org).

For one, we cite the more recent case of Mr. Irving “Deen” Warner. On the morning of Sunday, October 31, 2004, Mr. Warner was struck from the rear of his vehicle by a drunk driver. The circumstances of this “accident” are both dreadful and reprehensible. Mr. Warner’s vehicle was struck, left the road, struck a tree on the right shoulder and re-entered the roadway before leaving the roadway again, going through a wooded area, entering a golf course, striking another tree and bursting into flames. Three witnesses tried desperately to free Mr. Warner, who at the time had received massive trauma and was begging for help. They were unable to because he was hopelessly pinned inside his car.

The most deplorable thing for the family to accept is that the defendant in this case, Mr. Jeremiah Q. McBride, has never to this day been arrested. Moreover, by their own admission, the officers at the scene of this horrendous crime (Trooper Kenny Harrison and Lt. Orville Lewis of the Tennessee Highway Patrol) stated in their report stated that Mr. McBride reeked of alcohol. Additionally, the first witness, Mrs. Grethe E. Gunderson, told a very compelling story by telephone to attorneys for the family. She stated the details of the encounter and said she personally told the police officers at the scene what she witnessed. She saw the defendant staggering from his vehicle towards her and inquired of his condition. Then, after seeing her on a cell phone, he began begging her not to call the police because he was “drunk and was going to jail.” He even asked her to take him away from the scene to Clarksville. He didn’t even offer to help them try to save Mr. Warner. She also stated that she was **shocked** to see Mr. McBride leaving the scene with his parents without being arrested. The Clarksville Leaf Chronicle even reported that he refused medical treatment at the scene, had given medics a sample of his blood and was released. **His blood tested 0.11% of alcohol.**

Upon further discussion with Trooper Harrison and Lt. Lewis by phone, they both stated that a representative from the Montgomery County District Attorney’s office conferred with them by phone at the scene of the accident and concurred to release him without arrest, supposedly “lacking evidence of the presence of an influencing intoxicant.”

Moreover, upon a visit of the Montgomery County DA’s office, Assistant DA Hill said it was Montgomery County DA, John Carney, himself, that talked to the troopers and allowed this man to freely go without arrest. Then, after researching his name, they told us that Mr. McBride had a previous ‘Driving Under the Influence’ conviction just 5 months earlier. **Our loved one was killed by a two-time drunk driver and the authorities let him go without arrest!**

Hagmann and his cohorts have brought numerous allegations against MOA/IQOU and its leadership, creating such an atmosphere that if any African American was even accused of wrong-doing, it is assumed by law enforcement and the media that the individual was a member our organization. Meanwhile, the very opposite is the case. I, along with my American associates, have reformed thousands of young American men and women who now hate crime and drugs.

## **Ugly Face of Terrorist Exposed**

On December 31, 2001, I was at the side of my aged father who was critically ill. I was told that there was a female reporter, one Farah Stockman, wishing to interview me, who claimed she was from the Boston Globe. I sent the message that I could not leave my father but she should come some time later on. In the meantime, she was welcome to leave some information detailing the reason for her request for an interview.

In the time that I left to fetch the doctor, this woman wrote a note and sent it into my residence. My ailing father read this note, in which she alleged that Richard Reid, the “shoe

bomber”, was supposed to be my follower; and that he was an Al-Qaida man. When my father read this note, he started weeping and before evening, he passed away. Is this journalism?

Before coming to my house she went from door to door in Islamabad with Richard Reid’s picture telling people he was my follower, whereas I had never known or seen that man. It is not possible for anyone to just come to see me without being properly introduced by IQOU staff.

As a matter of fact, no one on the IQOU staff in the US knew either this Richard Reid or this journalist. During interrogation, the man, himself, never acknowledged that he knew or had met me. Yet people were paid to spread this falsehood.

Eventually, Stockman herself confessed. When she was interviewed in Islamabad, she related that she had been given this task by an agency in the U.S. She added that another person would be coming to stretch the lie even further and that person turned out to be an alleged reporter from the *Wall Street Journal*—i.e. Daniel Pearl.

After my father’s demise, I moved to the mountains. There is a village there in which I was building a school for girls. After 15 days up in the mountains, I learned through a local newspaper that one reporter had been abducted.

Suspicion was focused on me because the reporter had stated in his journal that he was trying to meet with me. For this reason, the police wanted to interview me. Consequently, I voluntarily returned to Islamabad to meet with the police authority. I asked them how is it that a person whom I have never met nor ever known could have been abducted when he was a 1,000 miles away from me. How could I be blamed for that?

They told me that I should report to a Karachi investigation team. That same night I flew to Karachi and reported. Everybody there knew I was not guilty. However, I stayed with them for a week until the actual abductors were caught.

Meanwhile the high court judge handed down a decision. I was given an immediate release. I was innocent and had fallen victim to the most inhumane, cruel conspiracy—a plot to assassinate my character as well as take my life...so consistent with Israeli schemes.

Another Israeli conspirator wrote a book entitled *Who Killed Daniel Pearl*. Outrightly discredited by the U.S. public, it was declared a heap of lies. In that book, he claimed that I was the mentor of Osama Bin Laden. Nobody believed his story. I do not know Osama Bin Laden; yet it doesn’t take much for dirty lies to spread.

This particular author also called me the “world’s most mysterious man”. Now here I’d say he was not all wrong. I am a Sufi. The entire Sufi doctrine is very mysterious, complicated and unexplainable to those with no intellect, understanding, etc.

Now, here comes the latest aggressor, Douglas Jack Haggmann. In one breath he concocts so many lies that one wonders how a person with common sense can do such a thing. His statements themselves are self-contradictory, identical to his predecessor, Yusuf Bodanski.

Haggmann claims that I have a connection with Hamas. Then, he revives the dead case of Daniel Pearl, as stated earlier. After his abduction, hundreds of people were questioned. While in Karachi, he’d written in his diary that he planned to see me, whereas I was over a thousand miles away, in the mountain valley of Ghari Habibullah building a school. I was also questioned. I responded to their queries, the authorities realized their mistake and I was allowed to go home.

But this man brought accusations in such a way as to implicate me in the whole affair, itself, or at the very least to insinuate that I am hostile to journalists. I, myself, am the founding executive of Islamic Post of New York and the author of many books. Why should I refuse an interview of a

fellow journalist? It is very common for TV teams and journalists to call on me to discuss issues of mutual concern.

Has Mr. Hagmann seen my interview done by George Crile of CBS, 60 Minutes II? We hosted Mr. Crile comfortably in my home for two nights.

Another accusation he leveled against me is that I shelter one Stephen Pastor—a man accused of training people to make bombs. (Stephen Pastor was present in Pakistan about ten years ago and then went on his own way.) I have no words to express my detestation of such false accusations. However, I will continue to focus on the good work of my students.

As a matter of fact, for the last 25 years many student groups from America have been coming to visit Pakistan, mainly for hiking, trekking and tourism. The Islamberg Hiking Club remains very active in the Himalayas. Many went over the Karakoram highway to the border of China and visited other mountain areas.

It won't be out of place to mention that during my early days some of my dearest friends were American teachers and students who went climbing and hunting with me. I spent most of my time mountains climbing, hunting and contemplating. People from all over the world would come to me.

In 1966, while I was up in my spiritual retreat (Zavia) in the Himalayas at 14,000 feet, one American, John Mc Arthur, along with a female companion came up. He was the heir of one prominent Chicago newspaper. They were my guests for some time and wanted to climb the Mankial Peak, a straight wall 5,000 feet up from where we were. I told him that the weather was not right and that it could not be done in one day. However, he said goodbye and decided to climb anyway, against my instructions. I was very worried because I knew it was not possible. The following morning I came down from my Zavia, and that same day his companion reached me after midnight very hysterically saying that Mc Arthur had not come down to base yet. It is a long story but the thing is that I went out of my way and requested my government to send helicopters to rescue him. I myself went up in a helicopter to search for him.

Thousands of people do come and meet me and then go on their way.

As in the case of Daniel Pearl, Mr. Hagmann mentioned the murder of one Ahmadia. The two individuals accused, allegedly perished in the fire set for the said purpose. Now I don't understand how the connection is made between MOA and those people. Is the assumption that every African American Muslim is a member of MOA?

As matter of principle American Muslims had been strictly advised to mind their own business and not interfere in others people's beliefs and religions. They adhere to this and will continue to do.

## **Irrefutable evidence**

When Saudi Arabia needed my help to prove the Holy Quran's healing effects on living and non-living beings, I simply went and demonstrated it for one year without pay, in the company of doctors from around the world knowing that according to the Saudi's (Wahhabi) belief, I am a "deviate". Also, being a descendant of the Holy Last Messenger ﷺ they claim that those who accord this family respect, are making us "lesser idols." Nonetheless, I completed the demonstration and healing. I cited three evidences of our reaching out and helping regardless of whether the people are Christians, Jews or Muslims.

On September 11<sup>th</sup> when planes struck the towers, a group of Mossad was filming the incident from rooftops on the Jersey side. I contacted our university personnel to immediately sent rescue

and relief teams and more than 100 scouts went to ground zero to aid in the relief efforts. The same was done when hurricane Katrina occurred: not only rescue & relief, but also rebuilding. They met hundreds of people telling them of the horrendous acts of terrorism perpetrated on the victims where levies were blown out with dynamite in order to save the upper class white neighborhoods.

There's a lot I can say but I know that a media trial and media war has been launched out to bring about the ultimate clash of civilizations and it has been quite successful.

**“America is a country where people have joined together to live in peace and prosperity and we wish this to continue.”**

**His Eminence, El-Sheikh Syed Mubarik Ali Shah Gilani Hashimi**

These terrorists have gained mileage out of this horrendous campaign. The American people have been made pawns in this game and are paying a dear price in blood and money fighting a war for someone else. Muslims too are suffering. As regards to the allegations of the earlier man who authored *Who Killed Daniel Pearl*, there is some speculation that it was the FBI who released a computer-generated video depicting Daniel Pearl being killed. Up till today, no one believes that video and its authenticity has yet to be proven. The whole hoax

was arranged to set up a few people so the CIA could move against them. It was very similar to when they sent Farah Stockman carrying a picture of Richard Reid telling people that he was my follower. The entire story is very strange. Was he a ghost? If he was my follower, why is it that neither I nor any of my followers knew him?

It is a fact that I was sent to the United States to guide and lead Muslims on the right path. Unlike these messengers of falsehood, whatever I say, there are hundreds of eyewitnesses from one end of the United States to the other who will testify to its validity.

One can interview people who will swear on their honor that the only thing which made them submit to me was that the Holy Last Messenger ﷺ came to them himself in a vision and told them he had sent me to them as his Khalifah and Guide. I introduced El-Gilani Methodology to them, which worked and still works in healing people of all types of diseases. I still heal people on the phone, particularly those suffering from epileptic fits after reading the *Harry Potter* series.

The author of that book was right in one thing: I am a mystery nobody can solve. I will let Mrs. Najah, wife of Ali Abdur-Rashid explain one miraculous manifestation.

## Shrine Account

“Baitun-Noor Holy Khanqah was so named in 1996 by His Eminence Sultan Mohyuddin Imam Syed Mubarik Ali Shah Gilani, (a direct descendant of the Holy Last Messenger Muhammad, countless peace and blessings be upon him), the Vice Chancellor of the International Qur’anic Open University. The Imam faxed a Du’a (prayer) from the treasure chest of Sultan Sheikh Syed Abdul Qadir Jilani to be recited on Nisf-e-Sha’baan (15<sup>th</sup> day of the eighth month of the Islamic calendar) and subsequently upon receipt of the fax the miracles began.

“The students were ecstatic when the jammed paper came out pristine. They were expressing their joy when one of them saw a perfectly shaped, brilliantly colored rainbow on the ceiling. Another student went to the sink in search of a water source that could be causing the rainbow on the ceiling and found, emblazoned on the wall, the Name of the One Almighty Crea-

tor/Allah and His Holy Last Messenger Muhammad ﷺ. The names were inscribed in impeccable Arabic script and in radiant layered rainbow colors.

“Beginning in Ramadan 2002, the Name of Allah Almighty, His Holy Last Messenger Muhammad (countless peace and blessings be upon him forever), Ali Asadullah (may the Almighty bless his countenance), Arabic letters, rainbows, and silhouettes of hawks/falcons were seen at Baitun-Noor Holy Khanqah by thousands.

“For 30 days continuously the name of Almighty Allah and the Holy Last Messenger ﷺ kept shining on the walls of the Holy Shrine and visitors would see rainbows in the shrine at night. Thousands of people flocked to the site and prayed; Christians and Muslims alike. Many patients were cured of cancer and other diseases after praying to be healed there.

“All of the major media was invited to come and witness this immense miracle but none accepted. *The Herald*, a local South Carolinian newspaper, had a psychiatrist state “It’s a miracle, if you believe it, because people see what they believe.” One Christian lady, Mrs. June Najjar, and her husband, Mr. Muhammad Najjar, came to expose this thinking; that probably it was being done with lasers etc. However, the local reporter from the *Herald of Rock Hill*, SC, Andrew Dys, himself, saw the miraculous manifestation of the name of Allah Almighty written in Arabic script.

“Muhammad Najjar was diagnosed with terminal lung cancer. He and his Christian wife, June, were encouraged by their Muslim neighbors to visit Baitun-Noor and pray for a cure. Muhammad Najjar entered the Holy Khanqah and in quiet solitude spoke to the One Almighty Creator, Allah. June saw the miraculous manifestation of the name of Allah and His Holy Last Messengers emblazoned on the wall in rainbow colors. She commented, “You know this will not go away, it will always be here“. (June embroidered Allah’s name, as she saw it on the wall, on a pillow that sits on a bookcase in Baitun-Noor). On Najjar’s return visit to the doctor he was informed that he did not have any cancer and he was assured that Allah had answered his prayer in Baitun-Noor.

“Abu’l-Hasan (Muhammad Najjar) documented his miraculous cure in Arabic and English stating that before the documentary, no matter how hard he tried, he was unable to speak his mother tongue, Arabic.

“Miraculous manifestations are a warning for the oppressors and glad tidings for the oppressed; as well as a sign that the Muslims and Christians will unite with allegiance to Holy Second Last Messenger Jesus, son of Mary (peace and blessing be upon him). Those who witness miraculous manifestations are blessed with divine favor and love and it is meant to promote their certainty and assure them of Allah Ta Aala’s help and support.

“It is written in the books of earlier Sufis that a divinely sent reformer or leader (not Messenger because the Holy Last Messenger Muhammad ﷺ is the last Messenger) must be supported by divine miracles and heavenly bodies must obey. Therefore these miracles are exclusive signs meant for the students of His Eminence, Imam Gilani and is supported by Divine Mandate. There have been so many Miraculous Manifestations happening for the past 20 years in support of the Da’wah (propagation of Islam) mission of His Eminence, Sultan Mohyuddin Imam Syed Mubarik Ali Shah Gilani.”

At that time I said it was a warning and glad tidings at the same time; that people oppressing others would not be successful. I conveyed this message. I along with my sincere followers saw exactly what happened at New Orleans before it took place. I advised the university staff to publicize our documentary, *Beyond 60 Minutes*, and circulate our newspaper, *The Islamic Post* to TV networks, security agencies, and the public in general. I assure everybody that we are very hum-

ble Sufis. Love and Peace are our weapons. Neither I nor any of my followers ever told anyone to cause harm to anyone else. But unfortunately our enemies decided to wipe Islam out from the world and not let it flourish in the United States and for this reason all that is being done.

Our university has forbidden Muslims to live on welfare, and all those who may acquire wealth illegally have nothing to do with our university or us. They are only bringing a bad name and dishonor to Islam. In fact, we have unearthed two groups involved in anti-social activities using our name and we have thrown them out, and because of that our own people were shot and harmed. I, on behalf of the staff of MOA and IQOU, declare that for us, America is a country where people have joined together to live in peace and prosperity and we wish this to continue. But the basic and fundamental reality is that if America is used to fight other people's war, it will be very difficult for it to remain intact.

American Muslims and Christians must join hands to save their country, religion, and morality because it is being targeted by vested interests and being replaced with Satanism, witchcraft, and Paganism.
